A Beautiful Piano FOR \$200.

For the month of April only we shall offer a beautiful new, large size mahogany piano of standard make with elegant finish, a beautiful tone, all solid brass trimmings, a piano that regularly sells for \$350. When I told Mr. Adams, the manager of the piano department, that for the month of April I should advertise this piano for \$200 he replied that it was a crime to sell such a beautiful piano for \$200, so you can imagine it is some bargain. We warrant this piano for ten years and the terms are \$10 and \$8 per month. A catalogue showing the style of this piano will be sent to anyone interested in purchasing a piano. Geo. D. MARY PICKFORD

In Film Version of Cinderella at Library Tonight

Mary Pickford the most popular motion picture star in the world, returns to the screen on the Famous Players—Paramount program, in a four-part modern and original film version of the century-old classic "Cinderella."

In the exquisitely fanciful fairy-tale, arranged from the beautifully symbolic story, Mary Pickford portrays the pathetic but bewitching little cinder girl, the heroine of the world renowned and universally loved tale of the abused stepdaughter who was at last rewarded for her virtue and patience by a splendid triumph over the haughty sisters and unkind stepmother, and crowned princess and sovereign of her true love's heart.

This new and modern version of "Cinderella" is a delightful blend of comedy and pathos, and provides a consummately artistic treat for people of all ages. At the Library Theatre tonight.

Miss Knowit All—"Have you gotten your tickets for the Community Festival yet?"

Miss Busy Body—"What do they mean by Festival anyway? Is it merely going to be the usual round of Folk Dances? I enjoy seeing the youngsters dance, but that's so apt to become monotonous."

Miss Knowit All—"Well, the idea is a secret but they say it's entirely different from anything that's ever been given in Bennington. The committee has been working weeks on the program and Miss Wisecrone says you'll laugh the minute you see it. It's a real piece of literature, the sort of thing you'll want to take home with you and chuckle over the next day. I expect there will be some Folk dancing and stunts by the children, but they are all new and worked out in an original way."

Some of the recreation dancing class pupils are going to exhibit the latest modern dances. I've been dying to see the Lulu Fado with all its flourishes. My younger sister has been talking about the Camp Fire Girls all winter and she says I'll have a chance to see their ceremonial. I'd always thought of the Civic League as being rather dignified but some of these are going to put on a perfectly screaming farce. There'll be a number of stunts like advice for the love lorn and tabular with lots of our prominent citizens taking part. Judge Bennett has the music in charge and that will be fine of course with Donnelly's full orchestra to play. Why, with 225 in the cast, ranging from 5 to 25 in age every family in Bennington has a chance to be represented. I wouldn't miss it for anything!"

Miss Busy Body—"Well, that surely does sound interesting. Guess I'll go down to Mulligan and Roche's the first thing in the morning so I can get a good seat."

Special services are being held each evening this week at the Baptist church to which all are cordially invited.

Let all bring in some thought or scripture selection which appeals to them. This service is preparatory to the Easter service on Sunday.

BAGGING A HIPPO.

How It Is Done and How the Flesh of the Animal Tastes.

There are two ways of bagging a hippopotamus, says a writer in the Wide World Magazine, and neither is justified unless the sportsman is sorely in want of food. For its meat is very poor indeed and wants a good deal of preparation to be palatable to any one except the starving. It has a taste which can only be described as fishy, something what beef would taste like after being wrapped up for a couple of days with a Scotch haddock of doubtful freshness.

The hippo may be shot in water. When mortally wounded he will sink and will not reappear on the surface for several hours, consequently a firing lookout has to be kept for the carcass. If he is only slightly wounded he may charge, but more often he will flee and die in the reeds to serve as food for scavenger birds or crocodiles.

The other and more sporting way is to shoot him on land. This is, as a rule, only possible at night or late in the evening and early in the morning. It would not be wise to find oneself between the river and the wounded hippo, for he at once makes for the water by the shortest route, and he goes so fast that getting out of his way requires pretty speedy feet and great coolness of nerve.

FORCES OF NATURE.

Soft Their Touch, but Constant and Effective Their Work.

What adds to the wonder of the earth's crust is that the millstones that did the work and are still doing it are the gentle forces that career above our heads—the sunbeam, the cloud, the air, the frost. The rain's gentle fall, the air's velvet touch, the sun's noiseless rays, the frost's exquisite crystals, these combined are the agents that crush the rocks, pulverize the mountains and transform continents of sterile granite into a world of fertile soil.

It is as if baby fingers did the work of powder and dynamite. Give the clouds and the sunbeams time enough and the Alps and the Andes disappear before them or are transformed into plains where corn may grow and cattle graze.

The snow falls as lightly as down and lies almost as lightly, yet the crags tremble beneath it; compacted by gravity, out of it grew the tremendous ice sheet that ground off the mountain summits, that scooped out lakes and valleys and modeled our northern landscapes as the sculptor his clay image.—John Burroughs.

An Eye For an Eye.

The law of Afghanistan is in theory the same as that of Mohammedan countries in general—that is, of the Koran. This is an eye for an eye, a tooth for a tooth, and enables the party wronged to avenge himself on a relative if circumstances prevent him from reaching the aggressor in person. Hence revenge becomes among the Afghans a point of honor, which no man may waive except with disgrace.
